

## Virtual Lunch Bunch

### ***Pre-COVID:***

Lunch Bunch served two purposes:

1. To train servers in local restaurants about how to effectively communicate with PWA
2. To provide a social opportunity in the community for PWA, families, caregivers, professionals, students, etc.

---

### ***Now:***

Lunch Bunch is virtual and continues to provide a social opportunity for PWA, families, caregivers and members of the community. Our programming has shifted to accommodate the current circumstances. Monthly meetings include:

- game-show style activities
- scavenger hunts
- presentations of study results
- showcase of resources to stay connected while socially distant
- and more to come!

---

### **Things That Have Worked:**

- Maintained attendance
- Social opportunity
- PWA and family as stakeholders

### **Lessons Learned:**

- Troubleshooting technology
- Breakout rooms
- Alternative communication modalities
